

Welcome

Starting Day Care may be a new experience for both child and parent. At Children's Village Day Care Centre, we provide a stimulating program designed to meet the needs of both the child and the family through a learning environment rich in experiences to engage children in active, creative, and meaningful exploration, play, and inquiry.

Children's Village is licensed annually by the Ministry of Education (MEDU). Standards are guaranteed by the adherence of the Child Care & Early Years Act. Children's Village is governed by a volunteer Board of Directors made up of eligible members of the Corporation.

Children's Village Day Care has enrolled in the Canada-Wide Early Learning and Child Care (CWELCC) system which will:

- Give families access to more affordable and high-quality childcare options
- Help lower childcare fees for parents of children under the age of 6
- Increase childcare spaces
- Support the childcare workforce
- Support inclusive childcare

Philosophy

At Children's Village Day Care, we believe that positive experiences in early childhood set the foundation for lifelong learning, behaviour, health and well-being.

Program

Our program is designed around the foundations of belonging, well-being, engagement, and expression. Our child-centred curriculum is designed to encourage and enhance the natural curiosity of children in a safe, nurturing environment. Our qualified staff of RECE's will provide play experiences that will invite children to investigate, imagine, think, create, solve problems, and make meaning from their experiences.

PROGRAM STATEMENT

At Children's Village Day Care, we provide a quality program designed to meet the needs of both the child and the family through a rich learning environment. We follow "How Does Learning Happen? Ontario's Pedagogy for the Early Years (2014)" as the guiding document under the Child Care and Early Years Act, 2014.

Our curriculum offers child-initiated experiences, activities, and events that occur within an inclusive environment designed to foster children's well-being, learning, and development. Our staff of RECE's strive to be organized around the foundations of belonging, well-being, engagement and expression in children where the goals and expectations integrate the 6 guiding principles of "Early Learning for Every Child Today"

- Responsive Relationships
- Learning through exploration and play
- Educators working with children as co-learners
- Setting up the environment as the third teacher
- Pedagogical documentation
- Reflective practice and collaborative inquiry

We use a play-based learning approach to create the best learning environment for children to learn and grow. This allows children to learn in a way that is appropriate for them. Each child may choose activities based on their own interest, giving them the opportunity to be creative. The environment is full of materials that are clean, safe and accessible for the children to explore. Materials in the room are rotated regularly to allow for children's changing areas of interest.

Children are competent, capable, curious and rich in potential

Our environment "the third teacher" is set up to meet the children's needs to become independent by allowing free choice of play materials. The children are encouraged to be self-reliant in routines such as dressing, toileting, washing, eating and tidying up their play materials.

Children thrive in indoor and outdoor spaces that invite them to investigate, imagine, think, create, solve problems, and make meaning of their experiences.

Our first and most important goal is to inspire delight, curiosity, and inquiry in the classroom. Our goals are consistent with the “How Does Learning Happen?” document

- Every child has a sense of belonging when he/she is connected to others and contributes to their world
- Every child is developing a sense of self, health and well-being
- Every child is an active and engaged learner who explores their world with body, mind and senses
- Every child is a capable communicator who expresses him/herself in many ways

To foster learning and support the children’s interests we offer a variety of daily activities such as language, numeracy, music, outdoor play, science and nature, creative, dramatic play, blocks and construction, fine and gross motor.

Our program is designed to:

- Builds intrinsic motivation
- Encourage children to interact and communicate in a positive way and support their ability to self-regulate
- Foster the children’s exploration, play and inquiry
- Provide child initiated and adult supported experiences
- Offer opportunities to create relationships with others in the program

Our staff are committed to building connections with the children by:

- Being at the children’s level for face-to-face interactions
- Using a pleasant, calm voice and simple language while making eye contact
- Providing warm, responsive physical contact
- Following the child’s lead and interest during play
- Helping children understand expectations by providing simple but clear explanations
- Taking the time to engage children in the process of resolving problems and conflicts
- Redirecting children to areas of success during challenging moments

- Fostering thoughtfulness and caring by listening to children and encouraging them to listen to others and share ideas
- Genuinely acknowledging children for their accomplishments and effort by clearly saying what it is they have done well

Children's Village works with families and children as a team. We foster collaborative and cooperative relationships between children and adults. We provide a sense of belonging for children and their families in our program by providing positive communication both through our Lillio program and in person. We value families as experts who know their children best.

Whenever possible Children's Village works collaboratively with community partners such as our local library, the public health unit, and other community programs (local fire department, police department, veterinarian, etc) to meet the best interests of the children.

We provide healthy meals and snacks and establish a positive eating experience that is responsive to the child. Our menu follows the Canada's Food Guide, and we are committed to meeting the individual needs of the children when it comes to allergies or special diet restrictions. Our menus can be viewed on the parent board in the foyer, on our website and is sent to parents daily through the Lillio program.

We see educators as knowledgeable, resourceful, and rich in experience and we value the environments they create for the children. Our staff offer a warm, positive learning environment and see themselves as co-learners to enhance the child's ability to explore, and to help when needed. Majority of our full-time staff working with the children have completed the Early Childhood Education program and are registered with the College of Early Childhood Educators. All program staff attend mandatory professional meetings and are committed to continuous learning. All staff are given the opportunity to work closely on pedagogical documentation both individually and as a team effort to extend the children's learning. Our staff make daily observations of children in the program and use this information to enlighten their future planning. The staff develop programs that support early learning following the child's lead and curiosity.

- In cases where a child has food allergies and the meals and snacks provided by the child care centre cannot meet the child's needs, ask the child's parent to supply snacks/meals for their child. All written instructions for diet provided by a parent will be implemented.
- Establish a hand washing routine before and after meals
- Teach all children of the risk reminding them not to share food and to eat only off their own lunch plate.
- In cases where the food is served in the classroom that contains allergens (ex. Milk) ensure that ALL staff follow the protocol for children with Anaphylaxis.
- Ensure that parents label food brought to the child care centre with the child's full name and the date the food arrived at the child care centre, and that parents advise of all ingredients.
- Encourage parents who serve foods containing allergens at home to ensure their child has been rid of the allergens prior to attending the child care centre (e.g. by thoroughly washing hands, brushing teeth, etc.)
- Do not use craft/sensory materials and toys that have known allergens on the labels.
- Share information about anaphylaxis, strategies to reduce the risk of exposure to known allergens and treatment with all families enrolled in the child care centre.
- Make sure each child's individual plan and emergency procedure are kept-up-to-date and that all staff, students, and volunteers are trained on the plans.
- Refer to the allergy list and ensure that it is up to date and implemented.
- Update staff, students, and volunteers when changes to a child's allergies, signs and symptoms, and treatment occur and review all updates to individualized plans and emergency procedures.

TERMINATION POLICY: We require that you advise us in writing two weeks prior to withdrawal of your child. If this is not done, you will be required to pay two weeks from the date of notification.

PAYMENT OF FEES: Invoices are created on Monday for that particular week, they are due the following Saturday. Fees can be paid directly through the Lillio app either manually or with auto pay, and we also accept e-transfer for payment to info@villagedaycare.com. Any NSF payments will be charged a \$25.00 penalty (**non-base fee**) . If payments are more than two weeks in arrears, we will no longer accept your child in our program until full payment has been made.
